

Grant Application

- Research Proposal small (< 7.000.-€)
- Research Proposal regular (7.000 – 18.000.-€)
- Research Training Scholarship

**AUSTRIAN SOCIETY OF CARDIOLOGY
AUSTRIAN HEART FOUNDATION**

Information: All applications (cardiovascular research proposals only) shall be submitted in English and will be reviewed by international reviewers. At the end of each project a research report has to be provided to the secretary of the grant-giving body including a detailed report on expenditure of funds. Publications deriving from the grant must allude to the grant in a legend. The applicant agrees by his signature that research results as well as patents directly deriving from the grant remain property of the **Austrian Heart Foundation**.

(Please type)

1 Titel of Project

Deutsch:

English:

2 Name of Applicant/ Chief Investigator:

a) Position of Applicant:

b) Academic Degree: Age:

c) Affiliation:

.....

d) Telephone/Fax/e-mail: Tel:

Fax:

e-mail:

3 Deputy Chief Investigator :

a) Position of Applicant:

 e-mail:

4 Research Institution

Name and Address :

.....

.....

Please give a detailed description of the research institution, in particular of the equipment available and necessary to perform the study:

.....

Details for the Reviewer:

Title of the Project:

.....

5 Detailed Research Plan (to be attached)

- a) Working hypothesis, scientific background of the study
- b) Scientific relevance of expected results/aim of the present study
- c) Long term expectations
- d) Priority of research
- e) Methods applied
- f) Statistical techniques used
- g) Summary of relevant literature
- h) Itinery/Scedule
- i) Costs (detailed)
- j) Which other financing bodies are involved in the study/ to which extent

6 Further attachments required: CV and list of scientific publications of applicant

7 Agreement:

The applicant agrees that a detailed report of the study/ research will be returned to the **Austrian Society of Cardiology/ Austrian Heart Foundation** at the end of the project. Furthermore, it is agreed that in case of discontinuation of the project the rest of the grant will be returned to the **Austrian Society of Cardiology/ Austria Heart Foundation**. The Head of the Department in which the scientific project will be performed certifies by his signature that the project can be carried out in his Department/Unit. The applicant certifies that all details reported in the pages above are true to his knowledge. R

Reviewer Sheet

Title of the Project:

.....

To the Reviewer:

Thank you for being so kind to review this grant application for the **Austrian Society of Cardiology**. Your review should address the following points which should be marked from 0 (worst) to 5 (best):

	(1-5 here)
a) Scientific relevance of application	[]
b) Long term expectations	[]
c) Overall priority of application	[]
d) Are Methods applied well chosen?	[]
e) Are Statistical techniques adequate?	[]
f) Is timeline realistic?	[]
g) Costs (detailed)	[]
h) Scientific qualification of applicant	[]
i) Scientific qualification of home institution	[]
j) Scientific Qualification of host institution if applicable	[]
k) Overall rating of proposal	[]
